San Carlos City, Negros Occidental, Philippines | +63 963 424 4771 | emil46284@gmail.com | [linkedin.com/in/emilioc-lopez](https://www.linkedin.com/in/emilioc-lopez)

PROFESSIONAL SUMMARY

E-Commerce Virtual Assistant with a background in IT, data management, and customer support. Experienced in product listing management, data cleanup and organization, and administrative case management, backed by hands-on programming and QA experience. Builds and maintains data systems used daily by non-technical staff, with a focus on clean, accurate, and easy-to-use processes.

CORE QUALIFICATIONS

- Product Listing & Uploads, SEO Product Titles & Descriptions, Listing Optimization
- Inventory Tracking, Order & Inventory Reporting, Reports Generation
- Data Entry & QA Testing, Excel & Google Sheets Formulas, Audit Reconciliation
- Customer Support (Email & Chat), Case Prioritization & Routing, Administrative Case Management
- Product & Supplier Research, ChatGPT-Assisted Research & Workflow Automation
- Basic Content Editing for Business Use — Canva & CapCut
- Notion & Asana Workspace Design — linked databases for client, project & deliverable tracking
- Tools: Google Workspace, Excel, Notion, Asana, Trello, Shopify, Canva, CapCut
- Clear written and verbal communication; fluent in English

PROFESSIONAL EXPERIENCE

IT Systems Support & Web Developer

Jul 2025 – Present

CICTD Office – City Government of San Carlos | San Carlos City, Philippines

- Built and maintains the San Carlos Tourism Management System (eTurismo), a centralized platform that lets non-technical staff manage hotel, attraction, shop, and tour records without IT assistance.
- Designed data input modules with built-in structure and validation, ensuring records are entered consistently and retrieved accurately — the same attention to detail required for clean product listings and inventory management.
- Handles ongoing QA testing, system maintenance, and reports generation, catching issues before they affect daily operations.

Data Entry & Reporting Assistant

Aug 2025 – Sep 2025

Auditing Contractor (Concurrent) | San Carlos City, Philippines

- Transferred audit data into Excel spreadsheets using formulas to cross-check totals and flag discrepancies, maintaining consistency across records under tight deadlines.
- Built a reusable template structure for recurring data entry tasks, reducing input time and minimizing the risk of mistakes on repetitive entries.

Customer Support & Administrative Assistant

Jun 2024 – Sep 2024

Social Security System (SSS) – E-Center | San Carlos City, Philippines — College internship requirement (BSIT)

- Cut average customer response time from 24 hours to 14 hours, a 42% improvement, by reorganizing how cases were sorted, prioritized, and routed — a case management approach directly transferable to handling refunds and disputes on a marketplace account.
- Maintained administrative records for a high-volume government e-service center, ensuring compliance-level accuracy and timely filing.
- Collaborated with multiple departments to identify workflow bottlenecks and implemented small process fixes that improved overall throughput.

Customer Service Assistant

Mar 2018 – May 2018

Maristel Café | San Carlos City, Philippines

- Assisted customers during daily café operations and ran structured computer sessions for children — early experience in breaking down technical tasks into clear, manageable steps.

EDUCATION

Bachelor of Science in Information Technology, Colegio de Santa Rita de San Carlos City Inc.

2020 – 2025
